

**First, do this:**

- 01. Print this page on an A3 paper.
- 02. Fold the paper along the dotted lines.
- 03. Pierce through the white circles with a stick.
- 04. Ta-da, now you have a flag!

**Then, do this:**

Place the flag where you want the tree to fall, fell the tree and let gravity do the rest! Post an image or video of the result, and hashtag the post with #husqchallenge. Don't forget to pass the challenge on by tagging a friend.
